PRE & POST TREATMENT

neo  
GENESIS

# MAXIMIZE YOUR RESULTS PRE + POST TREATMENT

NeoGenesis products help support professional procedures by minimizing redness, irritation, and overall downtime.

## CO2 LASER WITH PRP

BEFORE | AFTER

*Immediately following treatment* | *5 days post treatment*

“As a clinic director, I wanted to try NeoGenesis on myself first. I received both a PRP and a CO2 Laser treatment. I am amazed at what Recovery and Intensive Moisturizer\* did to reduce my downtime and discomfort post procedure.” - B.S.

*\*Intensive Moisturizer was recommended prior to the release of NeoGenesis Barrier Renewal Cream.*

# healthy skin

“I’m a licensed Pharmacist and work with and used other skin care products in the past but my experience has left me in shock after personally seeing how NeoGenesis Recovery worked on my IPL Laser Burns. I honestly have never seen anything like it, it worked so fast!” - B

## MINIMIZE SIDE EFFECTS + ENCOURAGE HEALING

The use of NeoGenesis Recovery twice daily for 1-2 weeks prior to aggressive modalities will help produce optimal results post laser treatments.

DAY 0 DAY 2 DAY 4

Immediately following treatment with use of Recovery

4 days post treatment with use of Recovery

“I have tried out a variety of treatments and this is the most aggressive one. I was concerned about the downtime and my comfort level. I didn't miss any work and the Recovery product when applied had a cooling effect of the heat. I am very impressed by the results; I used Recovery only on my face and you can see how well it reduced the redness by the second day, compared to my décolleté that I didn't use the Recovery on.” - P

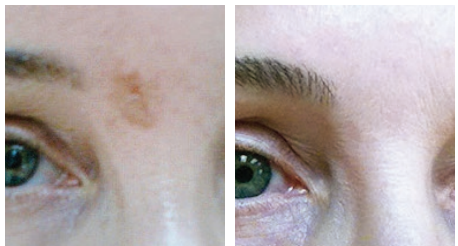

DAY 0 DAY 2 DAY 4

Immediately following treatment using competitor products.

4 days post treatment using competitor products.

## FRAXEL LASER BURN

“My year old fraxel laser scar disappeared after using Recovery for only 30 days! I thought I would be using makeup to hide it for the rest of my life. Amazing! I'm so happy to have found NeoGenesis!” - B.Z.

DAY 0 DAY 30

neo GENESIS

RECOVERY

ADVANCED CELLULAR  
SERUM

NEXT GENERATION  
STEM CELL SCIENCE™

3.4 FL. OZ. / 10 ML

# soothe and nourish

NeoGenesis brings you the most advanced cosmeceuticals available today and may be applied before and directly after treatments.

## MICROCURRENT

“I am a 60+ woman who has been receiving professional skin care treatments and using recommended professional products for the past 5 years. My appointments are approximately every 6 weeks and my go to treatment is Microcurrent with a vitamin A serum.

While my skin has felt very good, it still retained a red, slightly ruddy look. I assumed it was years of outdoor activity and the accumulated damage that I wouldn't be able to do much about. Last week I had my regularly scheduled Microcurrent but this time was different. My esthetician applied Recovery before the Microcurrent treatment and again after, followed by the Intensive Moisturizer. We were both surprised and a bit amazed when for the first time in decades, my skin tone appeared very even and glowing. All signs of redness were gone! I did not think this was possible, especially during only one treatment.

I've always been more interested in very healthy skin as opposed to looking a lot younger. This time I got both as a nice bonus! The value add was incredible and I'm excited to go forward with my new look.” - S.P.

# barrier repair

Post procedure, skin will be in a more sensitive and fragile state. It's important to handle with great care for the proper healing and to lessen any chance of complications.

## CHEMICAL PEEL

DAY 0 | DAY 1

*Immediately following treatment* | *24 hours post peel*

“As my initial pictures indicate, I had a reaction to a peel. I applied Recovery over half of my neck. The second set of pictures shows my neck roughly 24 hours later. The side that I put Recovery on completely calmed down. The side I did not apply Recovery to blistered and was very painful. As a licensed aesthetician I highly recommend using Recovery post chemical peel.” - S.Y.

## CHEMICAL PEEL

DAY 0

DAY 22

*Chemical Burn*

*9th day of Radiation*

“ I have been using the NeoGenesis product, Recovery, for a chemical burn and for side effects from radiation... I believe Recovery truly helped me to heal and relieved my discomfort. At this time there is almost no scarring.

I used Recovery daily and surprised all of the technologists and doctors (especially since I have Lupus), as I did not peel, blister, or scar... Your product Recovery saved the day. I hope other cancer patients have the opportunity to use your stem cell skincare products to save their skin.” - D.W.

## PLASMA FIBROBLAST

DAY 0

DAY 14

“ Using NeoGenesis Recovery serum supports the skin in healing after a Fibroblast procedure. Because it is important for the skin to dry-heal after Fibroblast, Recovery is the only product I allow my clients to use on their skin post procedure.”  
- Gloria Goodman, GG Skin Therapy

## MICRONEEDLING

Photos Courtesy of Professional Partner Pam Vendetti, Pamela V Skincare

BEFORE AFTER  
Immediately following treatment. 20 minutes post treatment.

“I am a licensed Esthetician who has become a big believer in NeoGenesis Recovery for many of my treatments. This client had over-stimulated skin due to her home care protocol of too many actives at one time. During her first Collagen Induction Therapy session, and as a new client, I could barely perform the treatment as her skin reacted with large red welts and some pinpoint bleeding at a very shallow needle depth. During that time she remained red for over 2 days. The redness should have dissipated in a few hours. Fast forward one month to the second treatment. My client was compliant in her home care. During her treatment I used Recovery prior to the microneedling and immediately after. The difference was remarkable! The first photo shows my client immediately after her second treatment. The second photo shows her in less than 20 minutes post treatment! This is taken in natural light with absolutely no makeup or filters. I am a believer and Recovery will definitely be in my protocol for microneedling.” - Pam Vendetti, *Pamela V Skincare*

---

The NeoGenesis line of products is completely safe, non-toxic, and a perfect pairing for pre and post-treatment care. Using our patented S<sup>2</sup>RM<sup>®</sup> technology, NeoGenesis products help the skin revitalize itself naturally by providing the molecules and nutrients needed for healthy skin.

# product partners

NeoGenesis products help to significantly reduce irritation and downtime to encourage the healing process to occur more quickly.

## RECOVERY

A breakthrough serum that assists in creating better treatment results as the skin is nourished and revitalized. Recovery supports the healing process, helps reduce irritation, and aids in protecting the barrier of the skin.

## BARRIER RENEWAL CREAM

A lightweight, unscented reparative cream to hydrate and soothe the skin pre and post-treatment and support the barrier function.

## MOISTURIZING MIST

A light, uplifting and soothing spray that delivers instant hydration and cooling relief for irritated, red and heated skin.

## SKIN SERUM

A unique, age-defying serum that supports the skin post-treatment when the skin is compromised. It will provide additional hydration and soothe irritated skin.

## INTENSIVE MOISTURIZER

Provides enhanced hydration through NeoGenesis' patented S<sup>2</sup>RM® technology as it supports and nourishes the skin after advanced treatments.
