

ACNE

REAL RESULTS

neo...GENESIS™

DAY 0

8 1/2 MONTHS

ACNE

“When my client came to me, her skin was so angry and inflamed, especially her cheeks, as she wears a mask. She had tried a bunch of things, but nothing had worked.

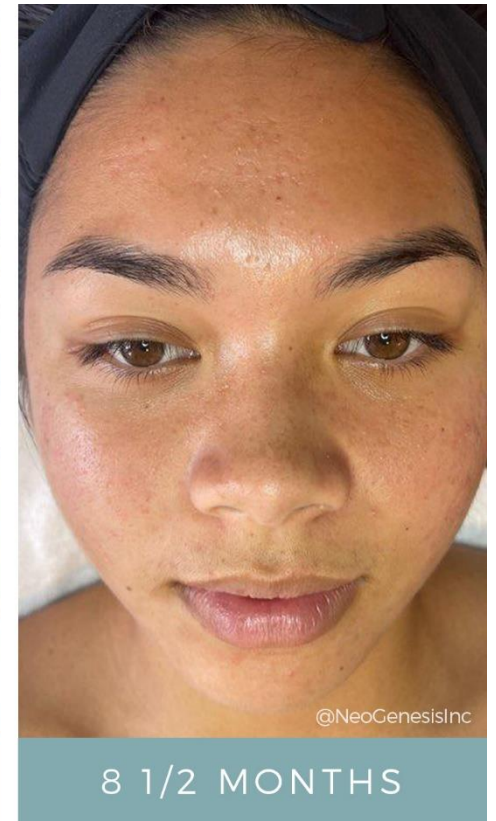

I gave her a facial enzyme and extractions and sent her home with NeoGenesis Cleanser, Recovery, Skin Serum and Barrier Renewal Cream. Within the first few days, the redness and inflammation started to calm down. She continued facial treatments and using the products, and after 12 treatments, she started on Salicylic Acid Gel, and then Mandelic Acid. Also started using LED and Jet treatments, which combined with the products, has really been a game changer.

Her skin is now night and day different. She is dedicated to her skin care routine, and I can see the difference in her mood, as she is feeling a lot better about her skin.” – Srita Edgecomb

ACNE

“Client started using NeoGenesis after she had done research into the benefits of adult stem cell skincare. She came across NeoGenesis and got in touch with us, her main concern being ageing. She was, at this stage, unaware of the benefits this may have on her acne. Being only 30 and looking at ageing concerns, she started on Skin Serum and Eye Serum. Then after seeing the calming benefit from just these products, and an improvement in her overall health of skin, as well as improvement in her acne, she amped things up to Recovery serum.

The client had been struggling with her acne for over a decade and she herself said that NeoGenesis has been nothing short of a miracle. The picture before is her acne at her worst and the after is her skin today after her 6-month journey with NeoGenesis. The client is amazed and after suffering with acne for so long, will now be a NeoGenesis client for life.”

– Lucy Hall, Medifine Skin Clinic Skin Therapist

ACNE + ENVIRONMENT

DAY 0

3 WEEKS

15 MONTHS

“This client has had issues with cystic acne for quite some time. He also works at a wood pulp mill and is often around the chemicals in the air. Once started on a regular skin care regimen using NeoGenesis products, his skin started to improve almost immediately. The redness started to subside, the flaky skin started to improve and the itchiness is now gone.” – Becky Stratton, The Skin Studio

HORMONAL ACNE

PROFESSIONAL FEEDBACK:

"My client has had consistent hormonal acne since college. She is 27 years old.

Her skin looks so much better now. The Salicylic Acid Gel has made all the difference.

Her cysts diminished immediately after she started using it and the redness is clearing. She has no irritation or itchiness. We see an improvement in texture and pigmentation.

Since using NeoGenesis products, the results have been really good for my client."

- Tara Linville - Doll Face Esthetics OKC

ACNE + SCARRING

“Our client struggled with acne as a teenager. It slowed down in his 20’s and now he is in his 30’s. He expressed that he has always been insecure about acne and his skin, and had been using ProActive.

To begin his treatment, I started him off with a facial and he started using Recovery serum. Within a week, he already noticed a difference in his skin. It was not as red and his wrinkles have gone down (for the past few years he started to notice wrinkles and bags under eyes). 2 months later, we began microneedling treatments, using NeoGenesis products. He likes the progress a lot. One thing he loves the most about the NeoGenesis products is that he has less wrinkles now, he breaks out less, his pore size is improving and the texture of his skin feels soft.”

– Vanexa Yang, V Beauty House

ACNE

"We have dramatically changed the skin in a matter of 9 weeks. You will start to see how the blackheads, whiteheads, and underlying congestion of the skin have dramatically improved, if not disappeared.

This is 9 weeks of using NeoGenesis on the skin topically. We have not treated the skin with any treatments. This is something we have never experienced in all of our skin education before. These images have shown us the level of how NeoGenesis will change skin. In all my years of working on skin I have never seen a troubled skin change so quickly.

My lovely client was tearful when she last came in, her words: *"I no longer wake up not wanting to look in the mirror."*

– Donna Glazer, Face It Skin Clinic

NEOGENESIS PRODUCTS USED:

Recovery

HORMONAL ACNE

"My client has been struggling with acne for 8 years. She has a combination of hormonal acne and stress related breakouts. Her face is often very itchy, red and irritated.

Within a week of using your products, her skin was already improving. In 2 months, she commented on how happy she was with her skin, and how she couldn't believe the difference from the previous month. The itching has improved, and so had her skin texture.

Now she is not wearing makeup (she usually uses concealer) and feels good."

- Christine Preston, Skin Discovery

HORMONAL ACNE

"ML has struggled with hormonal acne for several years. She also deals with hyperpigmentation and discoloration. Her pores are larger between the eyes, in the t-zone, and around her nose.

I started her on a regimen of Cleanser, Recovery and Eye Serum mornings and evenings. When she starts to feel the acne flare up, she spot treats the area with Salicylic Acid Gel. When microneedling, I use Moisturizing Mist and Light Moisturizer after the treatments. I use Barrier Renewal Cream instead of Light Moisturizer, if the skin is compromised. She also started using the Mandelic Acid 8%. ML's breakouts are much less now (every 3 months instead of every 3 weeks) and the cysts are much smaller. They go away in 1/2 the time. Her skin is hydrated and glowing. Her acne scars are a lot better. We are also seeing an improvement in her fine lines, especially around the eyes." - Lisa Brascho

NEOGENESIS PRODUCTS USED:

Cleanser, Recovery, Eye Serum, Salicylic Acid Gel, Light Moisturizer, Barrier Renewal Cream, Mandelic Acid 8%

HORMONAL ACNE

"PA has hormonal acne which is aggravated by her picking her skin, poor diet, inconsistent use of products and over-scrubbing her face, which has caused bacteria to spread.

She started the NeoGenesis line, but was not consistent with using the products, which delayed her progress.

Her face is feeling so much better now. She cannot remember the last time she had a cystic breakout. Her tone is much more even and glowy." - SB

ACNE (MASKNE)

"CH started getting acne when COVID started. He had never had acne or even had a pimple before. He thinks it started once he was wearing a mask (maskne).

His main concern is the PIH and sees the marks from a year ago.

In just 2 months the scarring has improved dramatically. The redness he had before using the NeoGenesis products has gone down.

CH looks forward to seeing how his skin improves in the days to come."

HORMONAL ACNE

“I don't have as many black heads and my pore size is definitely smaller.

I went from breaking out a lot when I got my period. Now I am not as prone to breakouts and now when I get my period the break out is small or barely anything.

Quicker, clearer lasting results. I have never experienced this kind of improvement with other products.

I am feeling like a 9 with my skin right now, if 10 was the best. I think the MB-1 changed the game.” – JS

HORMONAL ACNE

"This client struggled with acne from the ages of 14-19, and then her skin cleared until age 24.

She started seeing breakouts again, mostly hormonal. Her skin would clear up for a couple of months and then the acne would return when stressed.

Since starting on the NeoGenesis products, she now feels a huge difference. She is very impressed and very happy with the results and is sold on the line."

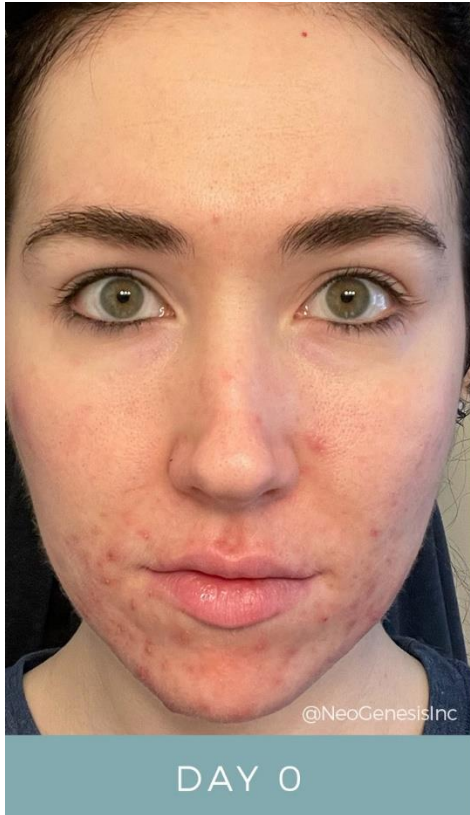

- Mariam Abbas

3 MONTHS

HORMONAL ACNE

"Here are some before and after photos of my client who has been struggling with hormonal acne.

It has been 90 days approximately and she has been clear from hormonal acne for 2 full months!

The products she used are NeoGenesis Cleanser, Skin Serum and Barrier Renewal Cream."

- Maureen Holmes, Skincare Studio

NEOGENESIS PRODUCTS USED:

Cleanser, Skin Serum, Barrier Renewal Cream

ACNE

“This client is struggling with Acne grades 2-3. His skin is very shadowy and patchy, with a lot of dullness to his skin. This is strictly just using the products AM and PM.

If you look at the overall tonality to his skin, you can see a huge improvement with the discoloration. The tonality of the skin looks a lot more even, looks bright, and there’s also a little bit of radiance, more of a healthy aspect to the overall skin tone.”

- Annkeith Ssharma – Shamin Skin Care

ACNE

“As a hospice nurse, the stress of work can trigger outbreaks of acne for this client. She has combination skin, and was trying both the Light Moisturizer and Intensive Moisturizer for the dry patches. She ran out of Recovery serum and noticed the texture of her skin was dramatically different after being off the product for 3 days. She started using Recovery again and her age spot is now looking better, and her skin is looking glowier.

She was not using any moisturizer in the mornings, so she has been adding the Barrier Renewal Cream every day before work to help prevent maskne. It felt really good under her eyes and she lathers it everywhere. Her lips and eyes feel really good and she likes it as a makeup base.

JA was surprised she is having less acne breakouts since she is wearing the masks a lot more now, almost all day, when she was not in the past.” - JA

"This is a big improvement for me. I am very, very happy. My skin feels soft and hydrated. I really enjoy the products! Easy to use. I feel they are very effective for me." - A

PROFESSIONAL FEEDBACK:

"An extremely compliant client in her 30's who has tried everything to help clear and heal her chronic acne skin. She has seen little to no improvement from professional treatments and professional homecare prior to NeoGenesis.

She is extremely happy with her results and I am so thankful to all of you at NeoGenesis for helping me find a effective treatment for her."

“Since using NeoGenesis products, this clients’ breakouts have completely calmed down and she has zero breakouts right now.

She is only using NeoGenesis products. Her skin is steadily improving. Redness has reduced and the skin is tighter than it was before.

She also had a deep line in her forehead which is slowly going down.

She generally feels her skin is looking a lot better and a lot calmer. She loves how gentle and smooth the products feel. Her skin wouldn’t be able to take other products.”

- Mariam Abbas

ACNE

“My mom introduced me to Pam and I was excited to try a new product for my acne. My skin felt red and irritated a lot, with pimples most of the month. All of the products I tried from the drug store made me dry and “peely”.

The MB-1 is very easy to use and feels good on my skin. It soothed my redness right away and I saw my breakouts begin to heal the first week. I got fewer new breakouts too and when I did, they were much smaller, without the redness and irritation I normally get.

One of the things I liked the best was how much better my skin’s texture looked and felt. My pores seemed smaller and my skin is smoother. I wasn’t expecting that and I was thrilled with my overall results.” – KS

ACNE + SENSITIVE SKIN

"RS has had skin problems since she was 15. She is currently dealing with acne on her jaw and chin area. She thinks it is Maskne. She gets blackheads in the t-zone area and has issues with cystic acne.

She also has extremely sensitive skin. She was using retinols daily, but stopped when her skin became even more sensitive. She thinks she may have damaged the skin barrier.

She started on the NeoGenesis products and within 6 months she noticed the breakouts were fewer and shorter. Her forehead is smooth and the pores appear smaller. Her skin is clearing up and she hasn't had any issues." - MM

"I was recommended to NeoGenesis by a friend. I had pretty severe acne and acne scarring on my face that started in early high school. The scarring was my biggest issue, but I also had breakouts, flareups and cysts.

After beginning the NeoGenesis products, within 6 weeks my skin was doing a lot better. The redness started to go away, my skin was smoother, clearer, and the breakouts were shorter.

By the 6th month my skin improved drastically. I now wake up and look in the mirror and am amazed at the results. My face is no longer a pinkish tone and the scarring and acne have improved."

Thank you NeoGenesis! - JD

DAY 0

2 1/2 MONTHS

ACNE + ACNE SCARRING

"I have had issues with acne that would leave deep scarring. As a registered nurse, I have to wear masks, which makes the issue worse. My skin is very sensitive, and the PPE makes my skin inflamed.

A friend recommended NeoGenesis and now my skin is doing amazing. The pore size is decreasing, my skin is definitely softer and smoother, and the scarring is looking a lot better.

I have been getting a lot of compliments on my skin. I'm telling all my friends about the NeoGenesis line!" - TH

NEOGENESIS PRODUCTS USED:

Cleanser, Recovery, Mandelic Acid 8%, Barrier Renewal Cream

ACNE

“For the first time in 15 years (I'm 31), my skin is clear and free from breakouts on a regular basis. I feel like I have acne under control thanks to NeoGenesis. I was so overwhelmed by all the skincare choices on the market that I stuck with a popular acne "three-step" system for about a decade too long. I would try to add other products (often popular or high end), but would feel disappointed when they didn't solve my problems.

After watching a YouTube video about a real person using NeoGenesis, I was intrigued and reached out to the company. I received a thorough skincare consultation with their awesome aesthetician through video chat (really!!) and I ordered my first few products.

It's been almost three months and I haven't wanted to skip any part of this routine that I love. Recovery has softened acne scars and even the fine lines under my eyes, and the MB-1 spray prevents

breakouts and creates a healthy balance on my skin. I love using the calming and light Moisturizing Mist spray before sunscreen in the morning and at night. I've sampled a few other products like the Enzyme Crème Mask and the daily Cleanser, and they are "holy grail" products too. I still can't believe that I found NeoGenesis, where every product seriously works.” - EL
